

## DEGREASING CLEANER

**Degreasing Cleaner** is an industrial-strength alkaline multipurpose degreaser and cleaner for all workshop and industrial cleaning applications. including the cleaning of dirty workshop floors and walls, degreasing of dirty, oily engines, washing floors and tiles, vehicles and vehicle components, equipment, tool and carpets.

### APPLICATIONS

- Cleaning of dirty workshop floors and walls.
- Degreasing of dirty, oily engines and equipment
- Cleaning of tiled floors, vehicles and vehicle components and carpets.

### DIRECTIONS FOR USE

1) Recommended dilutions—adjust as required for the application

Task	Dilution Ratio
Heavily soiled areas, engine cleaning, stubborn stains.	Undiluted—1:1
Workshops, engine cleaning, medium duty cleaning, floors, walls and tiles	1:3 to 1:10
General light duty cleaning, work surfaces, pressure washers, vehicles and carpets.	1:10 to 1:25

2) Apply and wipe directly to surface or use a mop or brush where applicable.

3) Rinse off with clean water or a damp cloth.

Effectiveness of cleaning can be improved by using warm water, allowing a longer contact time with the soil and by using mechanical actions including pressure washing, scrubbing, brushing or wiping, and by using a more concentrated solution.

### PROPERTIES

- Turbid, colourless liquid
- Non-abrasive and non-staining
