

## PETROL INJECTOR CLEANER

**Spanjaard Petrol Injector Cleaner** removes gum and varnish deposits from the injectors and fuel injection system while you drive. Restores optimum performance.

### APPLICATIONS

- Clean injectors and inlet valves optimise combustion which leads to:
  - \* Restoration of power and acceleration.
  - \* Improved fuel economy.
  - \* Reduced emissions.

### DIRECTIONS FOR USE

**To keep injectors clean:** One bottle treats up to 75 litres of petrol. Add entire bottle to 30-75 litres of petrol. Repeat regularly. For optimum results repeat with every tank of petrol.

**To free blocked injectors:** Remove vacuum hose from inlet manifold pressure regulator and insert into bottle. Run engine at fast idle until bottle is empty. (Caution: exhaust will temporarily emit white smoke). Replace vacuum hose once smoke has disappeared.

### PROPERTIES

Colour:	Brown liquid
Feature s:	<ul style="list-style-type: none"> <li>• Cleaning power that directly impacts combustion performance of the injector system.</li> <li>• Controls accumulation of deposits in overall combustion injection system.</li> <li>• Provides protective anticorrosive properties for preserving general condition.</li> </ul>

### PACKAGING

375 ml bottle

Revision: 251023

For safety and storage information, please refer to the safety data sheet (SDS).
