

## QUICK START

**Spanjaard Quick Start** is an instant starting aid for all engines. Contains an upper cylinder lubricant and high vapor pressure hydrocarbons making combustion more effective.

### APPLICATION

- First-time starting in cold and humid conditions when fuel has low volatility and is difficult to combust.
- Suitable for starting all petrol and diesel engines.
- Reliable when spark plugs are wet.
- Provides less drain on the battery.

### DIRECTIONS FOR USE

**Petrol engines:** Do not choke or flood carburettor.

**Diesel engines:** Do not use glow/heater plugs.

1. Ignition must be off.
2. Spray directly into air-intake for 2-3 seconds.
3. Start engine normally.

### PROPERTIES

<b>Colour:</b>	Clear colourless liquid.
<b>Features:</b>	<ul style="list-style-type: none"> <li>• High vapor pressure hydrocarbons to give instant starting.</li> <li>• Dispersant properties to repel condensed water.</li> <li>• Upper cylinder lubricant to reduce wear before oil circulation begins.</li> <li>• Controlled burning of fuel during engine start-up.</li> </ul>

### PACKAGING

350 ml aerosol

Revision: 110523
